All cattle will be Brucellosis Tested, aged, palpated and sorted into uniform sale groups of mostly four to eight head. Several Charolais bulls will be sold; they are young and will be fertility tested.

This list will be updated as the cattle are worked, individually identified, and as more is known to give you all possible information about them.

57 Head of Angus females, bred to Brahman bulls, to calve from November thru January. These cows are all 4 years old, in excellent condition and are fancy, deep bodied, excellent uddered young cows.

43 Head of Angus Baldy females bred to Brangus bulls to begin calving in November thru January. Every female is a four year old and are fancy, deep bodied, good uddered young cows.

79 Head of F1 "Tiger Striped" 1st calf heifers exposed to Angus bulls since Feb to have late winter calves. We'll have the cattle sorted into look alike groups with same pregnancy status.

75 Pairs Brangus and Brangus baldies, 4-6 yr olds, calves by Charolais bulls and exposed back to Charolais bulls. Calves will weigh 400# at sale time. They'll be three in ones with known palpation status.

50 Brangus and Brangus baldies, 4-6 yr olds; bred to Charolais bulls to begin calving in November thru January.

110 Brangus Pairs, 3-6 yr olds; 300#-500# Hereford and Brangus sired calves at side, bred back to Hereford and Brangus bulls.

25 Brangus cows, 3-6 yr olds; bred to Hereford and Brangus bulls to begin calving in November.

~~**9 Pair** of Registered Brahman heifers with their first calves by Brahman bulls. Five heifers calves out of the nine calves. Cows are exposed back to Reg. Brahman bull.~~ **OUT OF SALE**

11 Head of Registered Brahman heifers; 2 yr olds selling bred to Hereford bulls

10 Head of commercial Brahman heifers, past spring yearlings, weighing 800#, ready to breed when you choose.

26 Head of commercial Brahman 4-5 yr old cows; bred to Hereford or Brahman bulls to calve in the Spring.

154 Head of Brangus heifers, 16-18 months old; exposed to LBW Angus bulls to calve in the spring.

14 Pairs; 1st calf Brangus Baldies; 2 yr olds, exposed back.

12 Head of Brangus Baldies; 20 months, exposed to Angus bulls to calve in the spring.
